Road to the Horse Wildcard 2013

Taped 19/20 January 2013.

“Yogi” – Colt Start: 3 ½ YO Quarter foaled June '09 from Woroniecki Ranch in North Dakota <http://www.woronieckiranchquarterhorses.com> Purchased as yearling, only exposed to stock trailering, basic lead, trim, some online halter work. Had been off the farm since May '12

“Vincent” – Colt Start: 3 ½ YO Grade Quarter foaled June '09 unexpectedly from new Boarder's horse - just after their move for two years to Japan. Imprint Training, weaning, trimming in addition to some leading accomplished prior to video. Basic pasture horse.

“Pony” – Colt Start: adopted rescue pony some years ago from Kentucky Equine Humane Center <http://www.kyehc.org> Ran only as pasture ornament with significant efforts to catch, and trim. Occasional online efforts made in past. Quite independent, typically bossy older gelding.

“Helga” – Colt Start: 6yo warm blood/draft cross-bred mare from a special line of horses (Hanoverian, Trakehner, Morgan) destined for Olympic level disciplines by Mr. Ed Rothkranz (deceased). <http://rhinelandstudfarm.freeservers.com/index.html> This horse has been in rehab since it came last summer - unfortunately overfed, overweight, sorely lacking in farrier care and had run with the remaining brood mares for some years: unsold apparently as too short legged for that clientele. I'm very pleased to have her given me.

Taped 28 January 2013

“Sky” – FINISH Horse demonstration – 4YO Thoroughbred mare difficult re-start, in training here a year. Right Front heal bulb damage limited mobility for three months. Out of state owner. Am third trainer after previous failures to start - including Lexington Mounted Police off duty officers. Unsettled, scared, easy to panic, “city horse” apparently with even poor handling in foaling and yearling barns even prior to first trainer's unsuccessful efforts.

CD – Files of Photo, Biography, Statement of Interest
